### **Introduction**

Your natal horoscope, or birth chart, is a snapshot of the heavens at the moment you were born. It shows what the sky actually looked like at the time and place of your birth. Astrology in modern times has renewed the ancient discovery that the symbolism of the planets that surrounded you at birth describes your character and personality. Planets that were directly overhead at the time and place of your birth are most important, and would appear at the very top of the chart or the Midheaven. Planets that were just rising above the horizon in the East at the time of your birth would appear near the horizontal line at the left hand side of the chart or the Ascendant. If the Sun appears in the top half of the chart, then you were born during daylight hours and have a more outer directed personality. All of these features reflect the factors at play in the Universe at the moment of your birth and are significant indications of the basic qualities and tendencies that continue to make up your personality.

Each planet's relative position in the sky and significant angles that it makes to the other planets, or aspects, are examined in this report. Please keep in mind that you are not limited by these descriptions. Your natal horoscope does not prescribe your fate. The stars incline, they do not compel. Your birth chart shows potentials that you can either struggle to fulfill or deny. The choice is yours. Beneficial aspects, or planetary positions, are areas of life in which you show natural talent and achieve easy success. Challenging aspects, or planetary positions, can become your greatest asset if you can learn to be aware of how that dynamic plays out in your life and the world at large. The strongest and most important features of your chart are described first. For definitions of astrological terms, please refer to the glossary at the end of this report.

### **Chart Patterns**

#### **Funnel, focal planet Uranus**

You have the planetary pattern type called the 'funnel' shape. All your planets form a group, with the exception of the focal point, one planet or two planets in conjunction. Your energies tend to be channeled through this focus. You will have abilities in the occupied area of the chart, and goals in the direction of the focal point. The focal planet(s) symbolizes how your energies will be expressed, and where you seek to have your needs met or achieve your purpose.

Uranus in the First House (or sign) gives an individual with an original and eccentric mind, whose intuition is strong. Change and variety excite you. You are a nonconformist, and totally have your own code of ethics. You are constantly asserting your freedom and independence, which is the very breath of life for you. The Uranian energy can be impulsive, as well as insensitive to others'

needs, and you can appear to be cold at times, or you may seem to be more excited by ideas than by other people. You may feel unrest and isolation, as though on a separate wavelength from the rest of mankind. Your mutability and urge for constant change can frustrate or confuse those around you. You may also feel uneasy in your sense of self, as you attempt to come to terms with this basic instability. You benefit from learning practices that help balance your energy, and in developing understanding and acceptance that not everyone is as impulsive as you are. You are in your essence a free spirit, courageous and pioneering, whose mission in life is involved with bringing new ideas into being.

The following applies to your generation as a whole as well as to you personally:

Uranus in Leo (or the fifth house) gives a rebellious individual with a strong will. With this placement you tend to be determined to get your own way. You are reckless, original, and independent, and like to assert yourself. You can be very creative, especially in the arts. Whatever form your self-expression takes, it is likely to evoke you and no one else. Your unique viewpoint contributes to the potential for new genres and methods of accomplishment to come into being. Your approach to romance may also be different from the run of the mill. You may find yourself in unconventional in love affairs, perhaps with sudden beginnings or endings. Children are a source of great interest but you may have difficulties in giving them warmth and affection. You benefit from learning the joy that comes from a more heartcentered approach. You also benefit from more follow-through, focus and self-discipline, in order to successfully complete what is started.

## **Important Features**

### **Jupiter in Capricorn (2° Cap 03')**

#### **Jupiter in the Fifth House**

Jupiter in the Fifth House (or sign) gives you a generous personality with good vitality. You have dignity, pride and dramatic presence, and are courageous in your sense of self. You are likely to be a loyal companion. You possess excellent executive abilities. You like to show off your good side, and have a natural flair and sense of showmanship that carries you far in life. You enjoy the limelight, and would always rather shine out on a hillside than hide your light under a barrel. You are attracted to higher learning, and the fine arts, including the theater, and may try your hand at acting. You can also be extravagant at times, or suffer from errors in judgment. You may tend to overdo, and need to beware of egotism. You have good intuition; you make a capable leader when you follow your own inner guidelines.

Jupiter in Capricorn (or the tenth house) gives you a serious and conscientious personality. You are also very practical and have a talent for working with the public. You tend to be extremely careful with money, making a good manager, and have a strong drive to achieve success. You may be perhaps somewhat miserly with the gift of your affection. You can also be fearful of risking the fruits of your achievement, definitely not a risk-taker. You may refrain from taking chances that would in fact succeed. Although you have good prospects in life, your opportunities usually come from hard work and dedication. Tradition plays a large part in molding your ideals. You are noble and honorable in your connection with society around you, and enjoy being known as a good role model for others to follow.

### **Pluto in Taurus (22° Tau 56')**

#### **Pluto in the Tenth House**

Pluto in the Tenth House (or sign) gives you a forceful personality with a focus on issues of authority, power and control. You may in fact have a compulsion for control manifesting in difficulties with interpersonal relations or in rebellious attitudes toward established authority, or perhaps resulting in the charismatic personal magnetism of a natural leader. You may go through many changes in the course of pursuing your work in the world. You are a real powerhouse of energy, and enjoy being in charge, perhaps as a compensation for having felt overly controlled in your early encounters with authority figures. Your mother or your opposite sex parent was perhaps experienced as controlling, and you may have felt stifled in the individual expression of your selfhood. These early experiences are apt to give you a knee-jerk reaction to authority figures in your more mature manifestation based on unconscious impulses of fear and resentment. You might look to situations when you are fully in control as safe for you, and seek them out in your employment, such as being a self-starter or your own boss. You may, however, have difficulties maintaining a position of authority, once achieved. What is needed is a reevaluation and transformation of your urge for authority and control, based on a deeper understanding of yourself and a more conscious and socially responsible use of personal power.

The following applies to your generation as a whole as well as to you personally:

Pluto in Taurus (or the second house) gives you tremendous focus around the issue of money and material possessions. With this placement you will transform your attitude toward the material, and your values in general, as you go through life. Finding your own base, independent of cultural norms, is an important theme for you. You may be apt to associate a sense of security with material possessions, or find yourself spending in a compulsive way for no apparent reason. You are a financial powerhouse, but there can be swings of fortune, up and down, as you will likely go through many changes in your attitude toward the material in the course of your life's journey. You may find that you move toward a more connected sense of security as you mature, one that does not stem from feelings of isolation and lack. You can then overcome your tendency to obsess on having enough through self-discipline and a realigning of values. When your values transform, your sense of self no longer depends on physical possessions, but rather on the deeper meaning associated with these things, which are symbolic of love and sharing.

### **Sun in Pisces (28° Pis 23' 16")** **Sun in the Eighth House**

The Sun represents your will and purpose, your sense of vitality, and your evolving higher Self. In Pisces it is Mutable-Water, and rules the feet. Your ruling planet is Neptune, and also Jupiter. You are friendly and likable, and yet you can be very moody and introspective as well. Pisces is a watery sign, concerned with subtle emotions and secret mystical depths. You are not entirely at home in this world. You may at times prefer your inner life to this one. You are dreamy and full of imagination, and are easily influenced by everything around you, being quite sensitive to the emotions of others. You also have an artistic temperament that allows you to express these feelings in creative and innovative ways. You can be strong when necessary, but you may have a hard time making a decision. You also may experience upsets periodically, stemming from your extreme sensitivity as you react to situations and events that seem harsh to you. At your best you are truly compassionate, offering service, love and understanding to all of life that surrounds you.

The Sun in the Eighth House represents a concentration of the vital force to transform and regenerate, and to relate with others intimately. You enjoy the intensity of the human animal. It is your nature to marry sensitive perception with experience. Through your understanding of your inner self, you easily perceive the motives of those around you. You penetrate every variation of deep emotion in order to confront your own nature. You act from a primal urge to merge with

others, and to partake in the sacred and secret relationships between yourself and the world. Through merging with others at the depths of human experience, you investigate your own emotional desires. You are very aware of fathomless human needs through your deep knowledge of the instinctual level of interrelation, and the fear of loss, or death. Your aim is to metamorphose yourself in order to experientially manifest the cycles of death and rebirth from within your own inner world. You benefit when you experiment with and confront your fears and insecurities in healthy ways, around people who support your need to grow intensely, in order for you to maintain an ever-expanding boundary of security.

### **Moon in Taurus (12° Tau 12' 01") Moon in the Tenth House**

The Moon in Taurus gives a personality with a deep need for security, centered in the material world. You are possessed of powerful emotions, and you are also charming, good-natured, and attractive. The material world can be of importance to you, for it makes you feel comfortable to be in nice surroundings. You are also very practical, proud and stubborn, and should beware of acting conceited. You are likely to attract a loyal and loving partner.

The Moon in the Tenth House represents an emotional sensitivity to the experience of your acceptance in public career, your works in the world. Prestige matters a great deal to you. You may be ambitious in the outer world because you feel that you have something important to share with others around you. This makes you strive towards demonstrating your inner ability to be a leader. You have great inner strength and emotional control which you project outwardly as power. People may perceive you as emotionally cool, calm, and collected. Your sense of control and power gives you an air of authority. You have natural leadership abilities and you take the feeling of authority seriously as a demonstration of your self-worth. You feel a need to be connected to being useful in society and work well with the public. You truly want to see yourself serving the best interest of your community. You do best when you are in position to perform to the best of your qualifications, abilities, and talents and use your talents to improve the lot of others around you.

### **Sun, Moon, Rising Sign Features**

#### **Leo Rising**

The Rising Sign is the mask shown to others, also the physical appearance.

Leo Rising people are dramatic, extroverted and assertive. Your ruling planet is the Sun. You have great energy, courage and honesty, and are very creative, self-confident and perhaps a bit self-indulgent. You expect to be the center of attention, and often are. Even so, people forgive you for your excesses, sensing in you the incurable romantic. You are likely to have a leonine appearance, with a thick mane of hair and a dramatic flair to your clothing and appearance. You also enjoy the warmth of the physical sun. You are determined and usually get your way when you really want to. You also possess great integrity, and are a natural leader. Leo people are very proud, and your challenge is not to be arrogant or egotistical, but rather to develop humility and compassion, and to learn detachment in the gift of your affections.

#### **Uranus in strong conjunction (within 0.8 degrees) with Ascendant**

*The strongest blend of the energies represented by these two planets.*

This conjunction gives an eccentric and strong-willed individual. You are an original and independent thinker with an active, scientific mind, futuristic in outlook, and you are capable of bringing new ideas into being. In your restless search for the new and exciting you can put others' feelings aside. You can therefore seem to be determined to get your own way. You are tuned in to an unusual degree to planes beyond the physical, and may be able to perceive information through a powerful intuition or through psychic channels. You also love freedom from conventionality, so you may rebel against the norm. You are inclined to be reckless. You may also be nervous and impatient, or tend to shy away from commitment and responsibility. You can benefit from attempting to control your energetic and visionary impulses in order to make these more concretely available in your own life, and in the life of society around you.

**Pluto in square  
(within 2.5 degrees) with Ascendant**

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

This aspect gives a willful personality with a focus on being recognized and admired. You like to get your way. You have strong desires, and are single-minded about pursuing them. You have a powerful urge toward self-transformation, and may go through many changes in your life. You are not shy about expressing your beliefs, and may show a compulsion toward self-assertion and self-aggrandizement. There is an intense urge to transcend all barriers to self-realization that will lead you through many trials and ultimately to triumph if you persist. You have tremendous powers of regeneration and rebirth that may lead you through underlying feelings of insecurity and out the other side. You tend to champion the underdog, and react strongly to social injustice. When you learn to train your considerable energy on socially oriented rather than purely personal goals, you can become a focal point for the transformation of society.

**Moon in weak square  
(within 8.2 degrees) with Ascendant**

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

This aspect between the Moon and Ascendant gives a nurturing and protective personality. You are subtle in your actions, rather than direct, and are likely to reflect the moods of those around you. Your sense of security and your home are important to you. You have a habit of moodiness, with your emotions frequently changing, and this can create problems in relating to others. You may feel at a loss to connect with others, not being sure of how they really feel towards you, and yet secretly desiring emotional contact with them. You also tend to act instinctively, rather than after reasoning out the situation. You can therefore benefit from shedding the light of conscious reason on your habitual patterns, and working toward greater focus on your true goals.

**Chiron in weak trine  
(within 7.5 degrees) with Ascendant**

*The planetary energies flow smoothly; the connection is easy and beneficial.*

With this aspect between Chiron and the Ascendant in your chart you are likely to experience painful realizations throughout your own life and have the ability to heal others as well. Chiron is

called "the wounded healer" because it represents the archetype of imperfection and loss which when integrated leads to compassion and understanding of others' suffering. The empathy and the understanding that are gained through life's trials provide the ability to serve as a helper and a healer for others. You are more invested in this archetype than most, since Chiron is in a powerful connection with your rising point, symbolizing the self that you present to the world, esoterically your true self. You have probably experienced a certain degree of pain and frustration related to your self-concept, possibly in relation to trauma in your early years concerning parental care or perhaps similar issues with your peers. These early experiences may have made it hard to accept the love of others in your adult life. It is good to make the effort to connect yourself consciously with any painful events that may be buried in your unconscious, so that these will no longer have so much power over you. You do have a great deal compassion and empathy for others, and you are likely to be someone with career possibilities in the helping professions. You may strongly desire to help other people, and yet be unable to give them the full benefit of your higher self. It is good to integrate your past experiences, no matter how painful they may have been, and no matter how painful these feelings continue to be for you in adult life. When you have made a solid transition from existing in a divided state to a more balanced and integrated whole, you can be of much more actual service to other people, since you are more available to yourself.

You also tend to champion the underdog, and react strongly to social injustice. In relationships, you tend to become intensely involved quickly, and stay absorbed in the relationship as long as it lasts. There may be underlying feelings of insecurity leading to your rather self-centered and ego oriented behavior. Exploring these feelings can be incredibly rewarding for you, and should be quite possible, for you have tremendous powers of regeneration and rebirth. When you learn to train your considerable energy on these socially oriented as well as personal goals, you can become a focal point for the transformation of society itself.

### **Sun in semi-sextile (within 0.4 degrees) with Chiron**

*The planetary energies attract each other, require effort, allow entry of new information.*

Chiron is called "the wounded healer" because it represents the archetype of imperfection and loss which when integrated leads to compassion and understanding of others' suffering. The empathy and the understanding that are gained through life's trials provide the ability to serve as a helper and a healer for others. Since you have come through the fires of difficulty you are likely to be someone with career possibilities in the helping professions. It is often easier to face others' troubles than one's own, and you may even be more ready and available to help others than to help yourself. It is good to integrate your past experiences, no matter how painful they may have been, and no matter how painful these feelings continue to be for you in adult life. Then you will be in a position to truly sympathize with others' suffering and help them to work out their traumas as well.

(within 0.6 degrees) with Saturn**

(within 1.8 degrees) with Midheaven**

*The strongest blend of the energies represented by these two planets.*

You do well in a business setting, having a dramatic presence that gives you natural abilities to influence others, and an attitude of caring that makes you easy to get along with. You set priorities based on people rather than strictly on profits. Your personality will always be very involved with your working environment. Your career may also be quite changeable.

**Moon in sextile  
(within 3.5 degrees) with Venus**

*The planetary energies flow together, open into new possibilities, new connections.*

You possess a great deal of personal charm, and also have a love for the arts, especially music and dance. You are courteous and popular, and supportive to your friends. It is important for you that your home environment be aesthetically pleasing.

**Neptune in Taurus (3° Tau 39')  
Neptune in the Ninth House**

The ruler of your Sun sign is characteristic of your personality:

Neptune in the Ninth House (or sign) gives an impressionable, idealistic and very intuitive personality. You are inclined to the mystical, and are high-minded, seeing life in terms of visionary and poetic feelings rather than in practical terms. You are capable of great belief in the unknown and unproven. You are inclined to scholarly pursuits, but may feel a lack of motivation or vagueness with respect to educational goals. You also have a strong desire to explore and travel, to try novel ideas and experiment with new ways of doing things. You may be attracted to spiritual studies, or psychedelics, as a way to achieve a transcendent state of mystical union with all creation. Your challenge lies in relying on your considerable inner vision to unfold your own unique pathway, to make concrete and real your flights of consciousness to other realms, and bring this vision back with you into society at large.

The following applies to your generation as a whole as well as to you personally:

Neptune in Taurus (or the second house) gives a kind and charming personality with a sensuous nature and good taste in artistic matters. You love music, painting and poetry. You are inclined to express your aesthetic sense in your environment. You may also have a tendency to excessive consumption or even extravagance. You may have good luck with money in your life, and yet waste it pursuing impractical schemes. You can become prey to delusions regarding the true importance of the material world in your life, or doubt the basis of your security. There could be a lack of appreciation for your possessions, or an appreciation based on their emotional rather than their intrinsic value. You may also have a strong desire to share personal wealth or to give your things away to others. You benefit when you realize that a deeper perception of the meaning behind the material world is needed, in order to transform your values regarding resources, and that your true foundation for security lies within yourself.

## **Other Natal Planets**

### **Mercury in Pisces (11° Pis 42')**

#### **Mercury in the Seventh House**

Mercury in Pisces gives a refined and visionary mentality. With this placement, you may well have musical ability. You are likely to express your thoughts and feelings poetically, from an inspired and dreamy point of view, and you may be rather absent-minded at times. Mundane reality doesn't interest you. You may avoid dealing with the so-called "real" world by being evasive or vague in your communication with others, or you may daydream or fall prey to self-deception. You are highly sensitive in your reaction to your surroundings, coming from the unconscious and instinctual level of your mental function rather than your logical side. Your feelings can be easily hurt, and it benefits you to guard against resentment toward others for seeming to take advantage of your idealistic nature.

Mercury in the Seventh House represents a strong mental connection to other people. You naturally collect and exchange ideas with those you find yourself in partnership with. You are very interested in what other people think about any given situation in which you find yourself. Intellectual expression is for you a very natural medium of relatedness. This awareness of other's points of view can make it difficult for you to come to a decision. When you learn to detach your own ideas from those of other people, you can begin to discover the mysterious balancing act of accepting the differences between self and other.

### **Venus in Pisces (15° Pis 43')**

Always ready to take sides with the underdog, you are socially adept and easy-going, and you tend to be magnificently unbiased since you will accept just about anyone as a child of the universe. You benefit from learning discrimination in the gift your affections.

Venus in the Eighth House represents a deeply felt connection within you between what you value, affection and intimacy. You naturally benefit from close associations with others, either materially or spiritually. You are likely to be sensual and passionate in relationships, and tend to relate to even casual contacts on a deeper and more personal level. You may also appear friendly and guileless on the surface while acting shrewdly at another more hidden level of your personality. You benefit from curbing the willful expression of your passion and realizing the suffering inherent in any manipulative behavior. You may feel called to express artistically the hidden realms of your being, such as by exploring death and dying or the occult. Your values are subject to continual change as you learn and grow, moving you ever closer to a deeper conception of who you really are, below the surface

### **Mars in Capricorn (11° Cap 13')**

#### **Mars in the Fifth House**

Mars in the Fifth House (or sign) gives an energetic and passionate nature. You are dramatic, enthusiastic, ambitious and proud, with tremendous vitality and courage. You usually put your best

foot forward, being possessed of an innate charm and animal magnetism that other people immediately recognize. You have strong opinions and are not shy in voicing them, and may have a tendency to be extremely stubborn and convinced of your own point of view. You are likely to be physically quite active. There is a creative streak in you that must find its outlet, or you will suffer from energy sublimated into anger or unnecessary aggression, for the urge is strong to produce works of art or commerce that are uniquely yours, the fit expression of your ego. You may need to work through being selfish, or jealous of the success of those around you. You benefit from initiating a spirit of greater concern for others.

Mars in Capricorn (or the tenth house) gives an ambitious, vigorous and persistent nature. You are conservative and careful but always able to reach the goal. You are fond of responsibility. You will achieve much in life, being naturally controlled and a good follower as well as a good leader, although your actions are more likely to be guided by social convention than personal ambition. You seldom speak without a purpose, and can have a reputation as the "strong silent type." In your highest manifestation, your energy is invested in satisfying collective needs, for the betterment of society around you. You may have to work through issues of pride, even arrogance, and you can sometimes arouse opposition or even hostility from others. You suffer from tunnel vision at times, and benefit from cultivating broader and more unselfish ways of looking at things.

### **Saturn in Pisces (12° Pis 49')** **Saturn in the Seventh House**

Saturn in the Seventh House (or sign) gives a pleasant personality with a deepening and concentration, or blockage, in the power to relate to others. You are easy to get along with, and you usually do well in the areas of partnerships and business relationships, being possessed of good judgment, diplomacy and tact. You are very self-reliant and yet also experience a sense of isolation in life, owing to subconscious fears regarding truly giving yourself to another. You may feel strongly the potential for being hurt in this way. You may look for a partner who is responsible, possibly older and wiser, and whom you therefore consider safe. You may also experience sorrow or difficulty in marriage. You are challenged to rise above this circumstance, which can become an opportunity for inner integration and balancing. Your lesson is to make better use of relationship on an inner level as a vehicle for self-discipline in order to further your own growth as an individual.

The following applies to your generation as a whole as well as to you personally:

Saturn in Pisces (or the twelfth house) gives a deepening and concentration, or blockage, with regard to your connection to spiritual unity with All That Is. You have a serious and self-conscious personality. You can be moody and introspective, and are likely to be compassionate and sympathetic to the problems of others. You may at times feel that life is too hard, or that it is beyond your conscious control. You may experience a sense of imprisonment, either real or imagined, or perhaps a strong sense of guilt, which may be generalized rather than specific. You tend to withdraw from the world, or in some way give up control. Or you may overcompensate by trying too hard to achieve control. Your true path lies in soul-level self-sacrifice rather than in the more mundane life of worldly events. You possess, in a very concentrated form, the urge for spiritual evolution that is present in all of us, and which actualizes when you can detach from the personal self and surrender to a mystical union with all of life.

### **Chiron in Aries (27° Ari 58')** **Chiron in the Ninth House**

Chiron in the Ninth House (or sign) represents issues with one's vital force of abstracting and

understanding universal truth. This placement can lead to high achievement in the scholastic arena, but it may be nagging doubts that you are not really good enough that spur you on, rather than a pure love of learning. There is likely to be some form of painful realization surrounding the pursuit of wisdom, or perhaps in the area of philosophy or religion. It may be that parental figures had different notions of what makes the world make sense than you did, but for one reason or another you didn't take them on. Perhaps you were too young at the time for such a challenge, and now in your adult life you feel the pull of the beat of a distant drummer, but feel ambivalent or not sure enough of yourself to really do anything about it. In your frustration you may even seek to help other people to work out their own concepts of higher knowledge, while you yourself remain stuck in the mud of prior patterns. If so, it is time to shake off the shackles of the past and get on with your individual sense of your own philosophical values and visions. Perhaps by delving into what associations you have with bad models from early childhood, you can begin to more fully and completely inhabit the natural vision that belongs to your higher self. Then you can truly shine in the world of ideas, as you move out from your own center rather than the point of balance represented by other, more alien, philosophies.

The following applies to your generation as a whole as well as to you personally:

Chiron in Aries (or the First House) represents issues with one's vital force to be, to act, to initiate. With this placement of Chiron, your very sense of who you are may be threatened by disturbing realizations and painful memories. You may have felt belittled and put down in your formative years, rather than encouraged, by the significant adult figures in your life. Even after reaching maturity, you may encounter obstacles that prevent you from reaching your full potential. These difficulties can set up a pattern for failure, in which you operate more from a fear of failing than the expectation of success that breeds confidence for further achievement. One way this may manifest is in terms of acting not in your own behalf, in furthering your own goals, but rather in behalf of the goals of other people, which seem somehow more important or at least get priority treatment. You may keenly feel a lack of achievement in your own life, and compensate by trying too hard to help these others, putting yourself in the background, as it were. As long as these patterns operate more or less unconsciously, they are difficult to overcome, so the first step in surmounting them is to become more conscious of your own pain; acknowledging and discovering more about what exactly went on in the past to make you feel frustrated with your own abilities. At that point you begin to come out from behind your painful experiences and really show yourself. With a more conscious understanding of your own dynamics you can also begin to truly be of help to others, in how they deal with similar issues, as you start to approach them not from a false sense of vicarious achievement, but from a place of true friendship and helpfulness.

### **N Node in Pisces (10° Pis 31'R)**

#### **N Node in the Seventh House**

Lunar North Node in the Seventh House (or sign). South Node in the first house or sign. This placement gives a personality with a focus on forming close partnership attachments. You may have difficulties in marriage and partnerships; but there are also great rewards to be gained in this area. This is ultimately a spiritual placement of the North Node. In the past, or in past lives, you have been concerned with yourself alone, but now you must make the transition to being mostly concerned with others. This concern for the other person does not come naturally to you, for it is easier to rely on yourself, as you have always done. Now, in this lifetime, though, you need to focus your energies outward. The welfare of the other person, your intimate partner or your partner in other types of relationship, is a necessary key to your own spiritual evolution. By fulfilling this mission of connection with others, you enrich your own experience, so that you come back to yourself more whole, more well rounded. Your lessons in this life revolve around this ideal of true

giving of yourself to another.

Lunar North Node in Pisces (or the twelfth house). South Node in the sixth house or sign. This placement gives you a personality with a focus on spiritual rather than worldly concerns. Although the practical matters of everyday life come easily to you, you do not find your true happiness in the pursuit of mundane affairs, but seek constantly to expand your horizons mentally and spiritually to a larger and more inclusive context. This may be difficult, for the pull of everyday life is very strong in you, and in many ways it is what you do best. In the past, or in previous lifetimes, you made your focus in refining your abilities in the practical world. At that time you dealt mainly with issues of personal health, or of the welfare of others in small but important ways. Now, in this lifetime, your focus gradually shifts to a higher plane of activity. You find your true happiness not so much in day-today routine, but in sacrificing yourself to a higher purpose, to advancing beyond the material world, with a disregard for your own well being. You find yourself going deep within yourself to bring forth a renewed understanding of how to serve others by giving up your personal ego-involvement in your actions, as you become an exemplar of a more spiritually based society, in helping others with true compassion.

These two planetary energies, Jupiter and Chiron, both have a strong spiritual

component, but operate in different ways. With Jupiter's optimism in support of Chiron's tendency for pain and suffering as a way toward the light, you are always able to rise above distressing circumstances, buoyed up by a strong streak of faith in the ultimate beneficence of Spirit. In fact, positive outlooks can become something of an obsession with you, so that friends and associates get tired of your unflagging optimism even though you are such a helpful companion. You may have experienced controlling behavior on the part of one or both parents, especially your mother, and you may find yourself still involved in the battle for your own autonomy many years later. *The planetary energies flow smoothly; the connection is easy and beneficial.*

You have a brilliant mind, and are undoubtedly a witty conversationalist, although with a slightly erratic tendency to switch topics arbitrarily. This aspect is the hallmark of an inventor or other type of creative thinker, perhaps in the health fields or the helping professions. You are likely to have great difficulties with walking the straight and narrow but something seems to be forcing you to. Or it is a compulsion based on your own painful experiences with authority.
